A European-style curry with a rich flavor made with beef bouillon, sautéed onions, cumin, cardamom, and other aromatic spices. Rice blended in optimum balance to match the flavor of the roux, supervised by Kyoto's long-established rice shop Hachidaime Gihey, is used. The ingredients are tender and juicy "Osaka Ume Beef" and 10 kinds of colorful vegetables used in honor of the 10th anniversary.

KANZEN MEAL 10 Fruits and Yogurt Cream Sandwich ¥3,000

This fruit sandwich is made with two kinds of special yogurt cream, strawberry and apple, and 10 kinds of fruit for a combination of flavors and a balance of textures and colors.

## What is KANZEN MEAL?

The KANZEN MEAL brand pursues a perfect balance of deliciousness and the 33 essential nutrients prescribed by the dietary reference intake standards for Japanese people. Utilizing the latest Nissin Food Products technologies, we reduced the bitter, acidity characteristic of nutrients, pursuing an ideal balance between taste and nutrition in meals indistinguishable from regular dining options.
